Kết quả bài 2, lập trình ứng dụng udp_chat, ảnh minh họa chat giữa hai client:

The image shows a Windows 10 desktop with a Visual Studio Code editor open. The editor has a dark theme. The Explorer sidebar on the left shows the file structure of a project named 'BKA_LTM [WSL: UBUNTU]'. The file 'udp_chat.c' is open in the editor, showing a C program for a UDP chat server. The program includes `stdio.h`, `unistd.h`, `sys/socket.h`, `sys/types.h`, `sys/time.h`, `sys/ioctl.h`, `arpa/inet.h`, and `string.h`. The `main` function takes `argc` and `argv` as arguments. The terminal window on the left shows the command `./udp 8888 127.0.0.1 9999` being executed, and the output shows a chat conversation between a user and a server. The terminal window on the right shows the command `./udp 9999 127.0.0.1 8888` being executed, and the output shows the server's response to the chat messages. The status bar at the bottom of the editor shows 'WSL: Ubuntu' and 'Ln 73, Col 24'. The Windows taskbar at the bottom shows the Start button, a search bar, and several application icons. The system tray in the bottom right corner shows the date and time as '10:49 PM 4/6/2024'.
